

4-core multimode optical cable for outdoor 10 Gigabit Ethernet

Overview

Featuring 4 multimode fibers with 50/125 μm core size and a durable GYXTW-4A1a center bundle tube construction, this armored cable offers excellent protection against environmental hazards while supporting gigabit-speed data transmission over outdoor networks. Suitable for Various Harsh Installation Environments such as roads &. OM4 optical fiber is laser-optimized, with high bandwidth, a 50 μm core diameter, and a 125 μm cladding diameter. OM1 and OM2 standards support Gigabit Ethernet speeds (1 Gbit/s). OM4 cables utilize optimized. Fiber4u offers OM4 Fiber Cable solutions designed for ultra-high-speed data transmission. The corrugated steel tape has excellent water blocking abilities, providing a. t is valid and correct at the time of issue. Leviton reserves the right to modify details without notice in light of subsequent standard/specificati.
