

Banma Trough Type Cable Tray

Overview

Trough Tray provides overhead protection and concealment for a wide variety of wire cabling installations. A full line of accessories, covers, and radius fittings are available. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions duly conforming to ASTM A123 & ISO 1461 : m. Bahra Cables Company was established in 2008 to serve Saudi & GCC Markets. It is based in Bahra industrial city located 25km from Jeddah. Each cable tray type performs a different function and comes in various materials such as aluminum. New from MonoSystems, this versatile cable tray system is available in a broad range of NEMA and CSA load classes. Its “trough” design—often featuring a solid or partially enclosed bottom—provides an effective barrier against. For a few types of installations, the National Electrical Code (NEC) specifies the cable tray type to be used: Single conductor cables and Type MV cables must be installed in ladder or ventilated trough cable trays.
