

Cambodia Fiber Optic Distribution Box 8 Cores

Overview

The anti-loose cross screw ensures the fiber distribution box is securely locked, safeguarding the internal components.

Key Takeaways

The 8-core fiber optic distribution box is a compact, versatile solution for FTTH and telecom networks, available from multiple suppliers in Cambodia.

The 8-core fiber distribution box is designed to manage, protect, and distribute optical fibers efficiently. Key features include:

- Capacity: Supports up to 8 fiber cores, suitable for small-scale FTTH deployments or residential/commercial buildings .
- Material & Protection: Made from high-quality PC&ABS materials, offering dust resistance and IP65 moisture protection .
- Adapters: Compatible with SC and LC duplex adapters, and can accommodate tail fibers .
- Mounting Options: Can be wall-mounted or pole-mounted with optional accessories .
- Maintenance: Some models feature a windowed design for easy fiber inspection and maintenance without removing the entire cover .

- Splitter Support: Supports up to 1:8 micro splitters for efficient fiber distribution .
- Compliance: Many boxes are RoHS and REACH compliant, ensuring safety and environmental standards .

Suppliers and Local Availability in Cambodia

- OTRANS: Offers the BOC-008A 8-core fiber distribution box, suitable for FTTH, CATV, and telecom networks, with full enclosure and high durability .
- CRXCONEC: Provides indoor 8-core boxes with OEM/ODM services, allowing branding and custom designs. They produce up to 40,000 units monthly, ideal for large-scale deployments .
- EPES Solutions Co., Ltd: Supplies SC 8-core fiber optic patch panels, wall-mounted, compatible with SC, LC, FC, and ST adapters, suitable for IT and data center applications .
- Local Cambodian Companies: The Cambodia Fiber Optic Communication Network Co., Ltd. in Phnom Penh is a key local player in fiber optic distribution and network solutions . Additionally, top cabling and fiber optics companies in Cambodia can be found through verified listings for local sourcing .

Applications

- FTTH Networks: Efficiently manage feeder and drop cables for residential or commercial buildings.
- Telecom Networks: Provides secure fiber splicing, storage, and distribution.
- CATV and LAN Networks: Ensures stable and reliable signal transmission.

Conclusion

For businesses or network installers in Cambodia, the 8-core fiber optic distribution box offers a reliable, compact, and versatile solution. Multiple suppliers, including OTRANS, CRXCONEC, and EPES Solutions, provide options for both standard and customized deployments, with local support available through Cambodian companies like Cambodia Fiber Optic Communication Network Co., Ltd. .
