

Crimped Terminal Distribution Box

Overview

This storage box fits up to 15 crimping dies, as well as 8. At TONFUL Electric, we understand that the integrity of an electrical connection starts long before the crimping tool is applied—it starts with how the components are stored and maintained. PRECISION LATCH MECHANISM - Ensures your storage box does not open accidentally. PLASTI-GRIP pre-insulated RBY (red, blue, yellow) terminals and splices are designed to answer the need for. The assortment of terminals water tight with tool is a must-have for any professional electrician or DIY enthusiast. The crimp connectors are colour-coded in either red, blue or yellow for easy matchups, while the plastic storage box is divided into 18 compartments to keep them tidy and well-organised.
