

Custom Price of Nordic Photovoltaic Cable Trays

Overview

Custom PV Cable Tray: Reliable & Customizable Solutions Find high-quality custom PV cable trays for solar projects. Explore customizable, corrosion-resistan.

Key Takeaways

Exact prices for Nordic Photovoltaic Cable Trays are not publicly listed online and typically require a direct quote from the supplier.

Nordic Wire Tray offers the X-Tray series, a premium cable tray system designed for photovoltaic and other electrical installations, with customizable options for material, surface treatment, and load capacity . Prices vary depending on tray length, width, material (e.g., galvanized steel, stainless steel, or aluminum), and any additional accessories such as brackets, mounting kits, or covers . Customization for specific project requirements can also affect the cost. To obtain accurate pricing:

- Contact Nordic Wire Tray directly through their website or sales team to request a quote for your project specifications .
- Consider distributors or wholesalers like GVOLT, which supply PV cable trays across Europe and may offer bulk pricing or faster delivery .

- Factor in installation accessories such as brackets, mounting hardware, and protective coatings, which can influence the total cost . For planning purposes, cable trays for photovoltaic installations generally range from €20 to €100 per meter depending on material, size, and load rating, though exact Nordic X-Tray pricing must be confirmed with the supplier. If you are working on a large-scale solar project, requesting a project-specific quotation ensures you account for all customization, shipping, and installation requirements.
