

Czech Sifang Relay Protection Products

Overview

The 35kV and below series protection and monitoring relay, including line protection, segmentation protection, capacitor protection, transformer protection, PT protection, motor protection and backup power automatic switching. The device has the functions of integrated protection, measurement. CSC-211 Multifunction Protection IED is selective, reliable and high speed protection IED with rich functions to cover following applications: 1) Protection, bay control unit, MU (Merging Unit), and SCU (Smart control Unit) in one IED; 2) Work as feeder or capacitor bank protection IED; 3) Work as. Page 3 Overview CSC-161 is selective, reliable and high Communication with station automation □ speed comprehensive transmission line system protection (Intelligent Electronic The IED provides a highly sensitive and Device) for overhead lines, cables or reliable distance protection with innovative. CSC-306 Generator Protections IED is established in a general hardware and software platform. All functions are modularized designed and at the same time diagnosis and debugging tools are also provided. According to the actual needs of the field, through the visual chart logic, users can customize. SIFANG, established in 1994 by Professor Yang Qixun, one of the first academicians of the Chinese Academy of Engineering, is a leading provider of advanced products and solutions for power system protection and automation. With a strong focus on energy and power sectors, SIFANG offers a diverse. Protection and Fault Information Management System (PFIS) collects all fault detail information automatically and systematically, creates fault report and provides operating advice of restoration operation.

Article Content

SIFANG-CSC-280 Series Protection IED

The 35kV and below series protection and monitoring relay, including line protection, segmentation protection, capacitor protection, transformer protection, PT protection, motor protection and backup

SIFANG-CSC-211 Multifunction Protection IED

CSC-211 Multifunction Protection IED is selective, reliable and high speed protection IED with rich functions to cover following applications: 1) Protection, bay control

SIFANG CSC-161 PROTECTION DEVICE PRODUCT MANUAL

View and Download SIFANG CSC-161 product manual online. Line Protection IED. CSC-161 protection device pdf manual download.

Sifang-Products

Product Screening System Distributed Generation/Microgrid Management System
Distribution Grid Operation & Maintenance Management System Energy Management
System Substation Automation

CSC-326 Transformer Protection IED Technical

In the interests of our customers, we constantly seek to ensure that our products

Sifang-CSC-306 Generator Protection IED

According to the actual needs of the field, through the visual chart logic, users can customize all kinds of protection and control logic. The equipment is highly reliable, flexible and maintainable and can be

SIFANG

SIFANG, established in 1994 by Professor Yang Qixun, one of the first academicians of the Chinese Academy of Engineering, is a leading

SIFANG-Protection and Fault Information Management

Meanwhile, The PFIS manages the setting, configuration and operation of the protection devices and disturbance recorders. In Southeast Asia, Protection and
