

Eastern European Fiber Optic Patch Cord Company

Overview

FS offers full range of fibre optic patch leads & cables with bend insensitive fibre design that support fibre optic cabling up to 400G.

Key Takeaways

Fibercord (Ukraine) and Ufanet/Irida (Russia) are notable Eastern European manufacturers of fiber optic patch cords. Key Manufacturers

Fibercord (Ukraine) Fibercord is a leading Ukrainian manufacturer specializing in high-quality fiber-optic patch cords and pigtails of various modifications. The company is recognized for its wide product range, fast order execution, and reliable shipment, making it a strong option for businesses seeking fiber optic solutions in Eastern Europe . Their products cater to both standard and customized fiber optic applications, ensuring compatibility with diverse network infrastructures.

Ufanet / Irida Group (Russia) The Ufanet group, including the company Irida, operates in Russia and is involved in telecom network construction and fiber optic product manufacturing, including optical patch cords. They have extensive experience in network design, installation, and international partnerships, serving major telecom operators such as VimpelCom and TransTeleCom . Their offerings include cable assemblies, distribution cabinets, and optical patch cords suitable for large-scale network deployments.

Comlink Electronics (Central Europe) Although originally based in China, Comlink Electronics has established a factory and distribution center in Central Europe, focusing on fiber optic assemblies for the European market. This setup allows for faster delivery and localized support, making them a practical partner for Eastern European clients seeking high-quality fiber optic patch cords .

Considerations for Choosing a Manufacturer

- **Product Range:** Ensure the manufacturer offers the specific type of fiber optic patch cord required (single-mode, multi-mode, pigtails, or custom assemblies).
- **Quality Certifications:** Look for ISO or industry-standard certifications to guarantee reliability and performance.
- **Delivery and Support:** Local or regional manufacturing can reduce lead times and provide better after-sales support.
- **Customization:** Some manufacturers, like Fibercord, offer tailored solutions for specific network requirements. These manufacturers provide a solid starting point for sourcing fiber optic patch cords in Eastern Europe, balancing quality, delivery efficiency, and regional presence.
