

Egypt Low Voltage Cable Tray Company

Overview

Since our inception, EGYTRAY has been a leading specialist in the design and fabrication of high-performance cable tray systems.

Key Takeaways

Top cable tray manufacturers in Egypt include Metal Store, MT Tray, Metal Egypt, United Engineers, and Sigma Tech, offering a wide range of low voltage cable management solutions. Leading Manufacturers and Their Offerings

1. **Metal Store (MS Steel)** Metal Store specializes in cable tray systems and solar energy solutions, providing ladder trays, perforated trays, cable trunks, and underfloor trunking systems. Their products are available in hot-dip galvanized, electrostatic painted, and pre-galvanized finishes, with thicknesses ranging from 1.0 mm to 3.0 mm. They emphasize precision manufacturing using CAD/CAM software and CNC machinery, ensuring durability and compliance with international standards. Metal Store also supplies complete mounting and installation accessories for industrial and commercial projects .

2. **MT Tray (Metal Tech)** MT Tray offers perforated cable trays, cable ladders, and cable trunks, designed for high load capacity and easy installation. Their systems are suitable for low voltage wiring, control, and communication cables, and they provide supports and accessories for complete cable management solutions. MT Tray serves major clients including SAMSUNG, Siemens Energy, and Orascom Services, highlighting their reliability in large-scale projects .

3. **Metal Egypt** Metal Egypt manufactures a variety of cable management products, including ladder trays, perforated trays, and raceways. Their trays are engineered for heavy-duty cable loads and can be customized to meet specific project requirements. They focus on both functionality and aesthetic appeal, ensuring organized and safe electrical installations .

4. **United Engineers** United Engineers is recognized for producing durable galvanized steel cable trays suitable for low voltage applications. Their trays are corrosion-resistant, easy to install, and versatile for indoor and outdoor use. They provide solutions for industrial and commercial projects, emphasizing safety, organization, and long-term performance .

5. **Sigma Tech** Sigma Tech manufactures cable trays, cable trunks, basket trays, and electrical panels. They focus on precision sheet metal fabrication and provide solutions tailored to industrial and commercial environments. Their products are designed for efficient cable routing, durability, and flexibility, supporting both low voltage and general electrical installations .

Key Considerations for Choosing a Manufacturer

- **Material and Finish:** Galvanized steel, stainless steel, aluminum, or PVC-coated options for corrosion resistance.
 - **Tray Type:** Ladder, perforated, solid bottom, or wire mesh depending on cable type and heat dissipation needs.
 - **Load Capacity:** Ensure the tray supports the weight of low voltage cables and future expansions.
 - **Customization:** Ability to provide specific dimensions, bends, and accessories for project requirements.
 - **Compliance:** Adherence to international standards for safety and durability.
- Egyptian manufacturers provide cost-effective, high-quality, and customizable cable tray solutions, making them suitable for a wide range of low voltage electrical projects, from commercial buildings to industrial facilities .
