

Entrance partition electrical distribution box

Overview

The box separates cable terminations from each functional unit and makes the terminations inaccessible from the cabling section, which in turn reduces potential health and safety hazards. Labour time to be spent is short as the holes for cable entry are pre-machined. The product range of enclosures and distribution boards includes service entrance boxes and pillars, small distribution pillars and standard cable distribution cabinets as well as low-voltage distribution boards. Enclosures are available both empty for customers to install their own equipment or.
