

Fiber Optic Connector Manufacturing Price List

Overview

Wholesale Fiber-optic Connectors from Manufacturers, Fiber-optic. Source over 323 fiber-optic connectors for sale from manufacturers with factory direct.

Key Takeaways

Fiber optic connector prices vary widely depending on type, mode, and quantity, ranging from under \$1 per unit for bulk orders to \$10 or more for specialized connectors. Pricing by Connector Type

- LC, SC, ST, FC connectors: Common single-mode and multimode connectors typically range from \$0.50 to \$5 per unit for bulk purchases, depending on quality and manufacturer .
- MPO/MTP connectors: Multi-fiber connectors for high-density applications like 40G/100G networks usually cost \$5 to \$15 per unit, with prices decreasing for large-volume orders .
- Specialty connectors (e.g., E2000, MU, MT-RJ, POF): Prices can range from \$3 to \$20 per unit, reflecting higher precision, durability, or specific application requirements .

Factors Affecting Price

- Quantity: Bulk orders significantly reduce per-unit cost. For example, purchasing thousands of LC connectors from Alibaba or Global Sources can lower the price to \$0.50-\$1 per unit .

- **Fiber Type:** Single-mode connectors are generally slightly more expensive than multimode due to tighter tolerances.
- **Manufacturer and Brand:** Premium brands like TE Connectivity, Molex, and Amphenol may charge higher prices for guaranteed performance and certifications .
- **Environmental and Durability Ratings:** Connectors rated for industrial, outdoor, or high-temperature use may cost more.
- **Shipping and Tariffs:** Additional costs may apply depending on the destination, with tariffs ranging from 8% to 30% for U.S. shipments from certain regions .

Where to Source

- **Distributors:** Mouser, DigiKey, Octopart provide in-stock connectors with pricing, datasheets, and same-day shipping .
- **Wholesale/Factory Direct:** Alibaba and Global Sources offer bulk pricing directly from manufacturers, suitable for large-scale production .

Summary

For manufacturing purposes, bulk LC or SC connectors are the most cost-effective, while MPO/MTP and specialty connectors are higher-priced due to complexity. Prices fluctuate based on order volume, connector type, and supplier, so comparing multiple sources is recommended to optimize cost and quality.
