

High-precision CS connectors

Overview

CS connectors are the next evolution in delivering more performance and a 40% size reduction at the same time. CS brings 50 years of expertise in precision connector manufacturing, building on a legacy that began 70 years ago with the foundation of the company. We deliver high-quality, reliable interconnect solutions for automotive, industrial, appliance, and power applications worldwide, supporting. Since 1982 CS Connectors supplies electromechanical products for standard and customized applications worldwide. IMS CS develops tailor-made coaxial/high-frequency components and cable assemblies for any application, tailored precisely to your needs. The CS connector is a 'ceramic-based' VSFF connector that offers twice the density of legacy LC hardware whilst optimizing the network for next-generation data rates such as 200G, 400G or even 800G. As official distributors of patent owners Senko, Pro Optix are excited. CS® connectors by Senko in FCA's product portfolio. Designed with performance and space-saving in mind, CS® connectors are the perfect choice for your network infrastructure, regardless of its size or application.
