

Home Fixed-Length Fiber Optic Patch Cord

Overview

Discover reliable fiber optic internet cables for home and office networks. Fiber optic patch cables are indispensable components of modern fiber optic systems. This means they can move more data at once. They do not get as much interference as copper patch cords. Over three decades we have experienced a yearly growth of more than 10 % in our footprint now found in Trunk networks, FTTH, Enterprises, Ships, Offshore and Power Utilities. We take pride in delivering high quality solutions based on long-life components to ensure our customers' investments and. Fibre optic patchcords are single-, dual-, or multifibre data cables that are factory-assembled with the commonly used fibre optic connectors - LC, SC, E-2000, MTP, SN, CS, MDC, etc. switches, servers) equipped with fibre optic interfaces either directly. As networks move to higher speeds and higher density, choosing the right fiber optic patch cords becomes critical to the reliability of your system.
