

Huawei optical module GPON

Overview

Ensure that the optical power is not overloaded. Otherwise, the optical module may be burnt. In practice, the maximum upstream service bandwidth is 1.1 Gbit/s and downlink service bandwidth is 2.3 Gbit/s.

Key Takeaways

Huawei compatible OM5270S-D2SW is XGSPON & GPON OLT SFP transceiver, operating over Single-Mode Fiber (MMF) optical cable. It has minimum guaranteed optical budget of 34dB for XGPON and 35dB for GPON technology, with in most cases is enough to reach 20km distance. Otherwise, the optical module may be burnt. 1 Gbit/s and downlink service bandwidth is 2. Huawei GPON boards include GPON, XG-PON, XGS-PON, XG-PON&GPON Combo, XGS-PON&GPON Combo interface board, so there are these kinds of GPON optical modules corresponding. However, distance is just. The Huawei SmartAX EA5800 16-port GPON OLT Interface Board, model GPHF, marks a new frontier in high-speed, high-efficiency networking technology. This cutting-edge component is designed to seamlessly integrate into the existing EA5800 series, offering unparalleled scalability and performance for.
