

Huijue Main Distribution Box Dimensions

Overview

What are the dimensions of Huijue distribution boxes? The Huijue HJ-501 Low Voltage Electrical Distribution Box is designed for efficient, safe, and reliable.

Key Takeaways

Huijue main distribution boxes, such as the HJ-501, feature compact, rectangular designs with customizable dimensions to suit residential, commercial, and industrial applications.

The Huijue HJ-501 Low Voltage Power Distribution Box is designed for safe and reliable power management in both indoor and outdoor environments. It is constructed from high-quality stainless steel or cold-rolled steel, providing durability and corrosion resistance. The box has a compact rectangular structure, which allows for space-saving installation, and it supports customization of dimensions, colors, and configurations to meet specific project requirements.

Typical Features

- Voltage Ratings: 12V to 240V
- Current Capacity: Up to 100A
- Protection Level: IP-rated for indoor and outdoor use
- Installation: Wall-mounted or free-standing with strong structural stability

- Customization: Dimensions can be tailored to project needs, making it suitable for diverse low-voltage power distribution applications

Fiber-Optic Distribution Boxes

Huijue also manufactures fiber-optic distribution boxes (e.g., 12-core or 24-core models) for telecom and network applications. These boxes are typically made from plastic or galvanized steel, and their dimensions are designed to accommodate fiber fusion, patching, and distribution. While exact measurements vary by model, they are generally compact and modular, allowing for flexible installation in communication cabinets or outdoor enclosures .

Summary

While Huijue does not provide a single fixed dimension for all main distribution boxes, the HJ-501 and other models are designed to be compact, rectangular, and customizable, with sizes tailored to the installation environment and electrical or telecom requirements. For precise dimensions, it is recommended to consult Huijue's technical datasheets or request a custom specification from the manufacturer .
