

Moldova Control Distribution Box Manufacturer

Overview

Moldova+Ranking+of+Distribution+Box+ManufacturersFounded in 1988 as a wet wipe manufacturer, Mor Boxes has evolved into a specialized printing and packagin.

Key Takeaways

Moldova has several manufacturers and suppliers of control and distribution boxes, offering both standard and custom solutions for industrial and commercial applications.Key Manufacturers and Suppliers

- Atex Delvalle Atex Delvalle specializes in custom-made local control stations and distribution boxes, including explosion-protected units for hazardous areas. Their products are made from stainless steel AISI 304L or 316L and are designed for extreme outdoor conditions. They offer configurable control stations, motor starters, and terminal boxes with worldwide certifications, suitable for industrial, chemical, and refinery applications .

- Moldova High-Voltage Distribution Box Custom Factory This medium-sized company focuses on planning, installing, and renovating transformer stations for energy supply companies, municipal utilities, and commercial end users. They provide custom high-voltage and low-voltage distribution boxes, switchgear, and automation systems, serving both domestic and international markets .

- **21Food B2B Marketplace** While primarily a B2B platform, 21Food lists Moldova power distribution box suppliers, connecting buyers with verified manufacturers, exporters, and distributors. This platform is useful for sourcing multiple suppliers and comparing product specifications and pricing .

- **Go4WorldBusiness** This platform provides access to wholesale suppliers of Moldova switchgear and distribution boxes, offering bulk purchasing options and competitive pricing. It is suitable for companies looking for large-scale procurement of electrical enclosures and control panels .

Product Types and Features

- Low-voltage and medium-voltage distribution boxes for industrial and commercial use

- Explosion-proof and hazardous area enclosures certified to ATEX and IECEx standards

- Custom-built control stations with configurable terminals, push buttons, and motor switches

- Stainless steel and GRP enclosures for durability in extreme climates

- High-capacity XXL electrical enclosures for large-scale industrial installations

Considerations for Procurement

- **Certifications:** Ensure the manufacturer provides ATEX, IECEx, or local safety certifications for hazardous environments.

- **Customization:** Many Moldovan manufacturers offer tailored solutions to meet specific voltage, size, and environmental requirements.

- **International Shipping:** Some suppliers, like Atex Delvalle, support global delivery, which is important for export projects.

- **Technical Support:** Look for manufacturers that provide installation guidance, maintenance support, and after-sales service. Moldova's control distribution box industry offers a mix of custom engineering expertise, certified safety solutions, and international supplier networks, making it suitable for both local and global electrical infrastructure projects.
