

Power Source 4830 AC to DC Power Supply

Overview

The power supply shall be a Bogen Model PS4830W, or approved equivalent, and shall supply regulated 48V DC at 625 mA from a 100-240V AC, 47-63 Hz source. Maximum power consumption shall be 96 watts. 48 VDC AC-DC Power Modules Power Supplies are available at Mouser Electronics. 48v Power Supply, 48v Power Adapter is Compatible with polycom IP Phones VVX 300, 301, 310, 311, 400, 401, 410, 411, 500, 501, 511, 600, 601, 611, Sound Point IP 560, 670. The power supply shall be UL. The AC/DC Converters (48 VDC) we have developed for the communication market are mainly used as power supplies for communication devices such as servers, routers, and switching devices for communication carriers. They take AC power input from the system and output DC at voltages suitable for. An AC-DC power supply (adapter or internal converter) transforms alternating current (AC) from the grid into direct current (DC) required by electronic devices. All. Easy to integrate reliable power conversion Low noise, efficient, reliable and easy to integrate power supplies are essential in medical device, semiconductor fabrication and industrial technology applications.
