

Power distribution box fixed

Overview

A fixed power distribution box is a permanently installed assembly—often a panelboard, switchboard, or remote power panels (RPP)—that distributes utility or UPS power to multiple circuits. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation. Among our distribution boxes you will find the smart and practical solution for your project or business. Whether large energy and main Power Distribution Units, portable sub-distribution boxes, compact units or power outlet blocks – we offer the right. The distribution boxes from the Power series are specially designed for the larger distributions, suitable for applications in challenging environments. The POWERBOX (left) is a single housing that can be cleverly combined in order to obtain the desired size of the distribution unit. Today, electrical systems are essential for homes and industries.
