

Price of cable trays for power plant shafts

Overview

Wireways and cable trays price structures are dominated by material costs, which account for 60-70% of total project expenses. Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion. The global cable tray market for power plants is experiencing steady growth, driven by rising infrastructure investments and the need for reliable electrical distribution systems. According to recent industry reports, the market is projected to grow at a CAGR of 6. Cheap and easy installation method.
