

Professional Aluminum Alloy Cable Tray Manufacturer

Overview

Aluminum Cable Tray systems are lighter than steel cable tray and Certified CSA Cable Tray, UL listed, NEMA and certified.

Key Takeaways

Aluminum alloy cable trays are best sourced from manufacturers offering 6063-T6 or 6061 aluminum alloys, with proven corrosion resistance, lightweight design, and compliance with international standards. Key Considerations for Selecting Manufacturers

Material Quality: Most high-quality aluminum alloy trays use 6063-T6 aluminum, known for its excellent strength-to-weight ratio, corrosion resistance, and thermal conductivity, making it ideal for industrial, coastal, and high-voltage applications. For heavy-duty structural needs, 6061 aluminum may be used, though it has slightly lower corrosion resistance. **Design Types:** Manufacturers typically offer a variety of tray designs to suit different applications:

- **Ladder Trays:** Maximum ventilation, ideal for large power cable runs.
- **Perforated Trays:** Moderate ventilation and drainage, suitable for commercial and light industrial use.
- **Solid Bottom Trays:** Full protection against dust, moisture, and EMI, suitable for sensitive cables.

- **Wire Mesh/Basket Trays:** Flexible, lightweight, and easy to modify, commonly used in data centers and office environments . **Corrosion Resistance:** Anodized or powder-coated aluminum trays provide superior protection against saltwater, humidity, and industrial chemicals, making them suitable for outdoor, coastal, and marine installations . **Certifications and Standards:** Reliable manufacturers comply with international standards such as CSA, UL, NEMA, CECS 31-2011, GB/T 23639-2009, and ASTM B221, ensuring safety, durability, and performance . **Thermal and Electrical Performance:** Aluminum trays offer high thermal conductivity, reducing cable overheating, and non-magnetic properties that minimize interference in sensitive electrical systems .

Recommended Manufacturers and Regions

- **Apextray (China):** Specializes in 6063-T6 aluminum alloy trays with anodized finishes, offering ladder, perforated, and solid-bottom designs for industrial and coastal applications .
- **MP Husky:** Provides UL-listed, CSA-certified aluminum trays suitable for commercial and industrial projects .
- **Auyintecabletray:** Focuses on lightweight, corrosion-resistant trays optimized for thermal management and long cable runs .
- **Global Hubs:** Asia-Pacific, particularly China, India, and Southeast Asia, leads in production and supply, offering competitive pricing and large-scale manufacturing capabilities .

Procurement Tips

- Request material test certificates (MTCs) and small samples to verify quality before bulk orders .
- Evaluate total cost of ownership (TCO), considering lifespan, maintenance, and installation ease rather than just unit price .
- Ensure compatibility with existing systems and use proper fasteners to prevent galvanic corrosion when mixing aluminum with steel supports .
- Consider customization needs for modular or IoT-enabled infrastructure, as some manufacturers offer rapid prototyping and tailored solutions . By focusing on these criteria, you can select aluminum alloy cable tray manufacturers that provide durable, lightweight, and corrosion-resistant solutions suitable for industrial, commercial, and coastal applications.

Aluminum Cable Tray

Aluminum Cable Tray systems are lighter than steel cable tray and Certified CSA Cable Tray, UL listed, NEMA and certified.

Aluminum Alloy Cable Tray Manufacturer | Cable Management Systems

Our Aluminum Alloy Cable Tray is developed in-house with reference to the NEMA VE1-1979 Cable Tray Systems standard.

Aluminum Cable Tray - RXL

Made from aluminum alloy, these rugged components bolt together to form a solid and reliable cable pathway. To secure and protect

653 Series Snake Tray Aluminum Cable Tray | Snake Tray

Snake Tray offers Aluminum Cable Trays to accommodate our customer's needs for larger cable trays. Aluminum Cable Trays are a

653 Series Snake Tray Aluminum Cable Tray | Snake Tray

The 653 Series Aluminum Cable Tray is a ultralight weight, high capacity cable tray system designed to accommodate customer's

Aluminum Cable Tray | EAE USA

The aluminum cable tray is a lightweight, durable, and cost-effective solution used for organizing and safely carrying electrical and

Aluminum Alloy Cable Tray is Lightweight to Install

Aluminum alloy cable trays have good strength, beautiful appearance, large carrying capacity. Also, they are designed into several

Aluminum Cable Trays Manufacturer, Aluminum Cable Trays

About Aluminum Cable Trays Aluminum Cable Trays Our company is a noted Exporter, Manufacturer and Supplier of massively

Cable Tray Manufacturers and Suppliers

Cable Tray Description The aluminum cable tray has the characteristics of beautiful appearance, simple structure, unique style, large

Cable Tray and Ladder Systems

Basor Electric, the premier choice for cable management solutions, delivers unparalleled quality and innovation in cable tray and

"Aluminum Alloy Cable Tray"

China Aluminum Alloy Cable Tray wholesale - Select 2026 high quality Aluminum Alloy Cable Tray products in best price from

Aluminium Cable Tray | Harsha Group

Cable Tray Aluminium Cable Tray Harsha Group offers a range of aluminum cable trays designed to provide a lightweight and

Aluminum Cable Tray Manufacturers In India

Patny Systems is among the top aluminium cable tray manufacturers in India backed by 35-plus years of unquestioned expertise and

Custom Aluminum alloy cable tray Manufacturers, OEM/ODM Suppliers

The aluminum alloy cable tray is a premium-grade cable management solution that combines lightweight construction with

Cable Tray Systems — Ladder, Ventilated, Aluminum | TechLine Mfg

As a less-expensive alternative to conduit, a stronger alternative than wire basket, and superior to generic tray, Snap Track saves on

Aluminium Cable Trays | EAE Electric

The Aluminum Cable Ladder has a high loading capacity to manage dense cable transitions. Designed with a lightweight structural
