

Recommended PoE switch 10 ports

Overview

6 Best 10 Port POE Switch | 120W Power, Zero Noise This guide covers the best 10 port poe switch options, with power budgets up to 130W, port speeds up to 1.

Key Takeaways

Top 10-port PoE switches combine Gigabit speed, PoE+ support, and smart management features to power and connect multiple devices efficiently. Recommended 10-Port PoE Switches

- D-Link DGS-F1010P-E - Offers 10 Gigabit ports with PoE+, up to 30W per port, and a total PoE budget of 96W. Features include Long Reach PoE up to 250m, VLAN, QoS, and PoE Auto Recovery for reliable device management .
- D-Link DES-F1010P-E - Smart switch with extended PoE reach, VLAN, QoS, and PoE Reset, supporting up to 30W per port and a total budget of 111W. Ideal for IP cameras and access points .
- Jaycar 10-Port Gigabit PoE Switch (YN8049) - Provides 8 PoE-enabled ports and 2 standard ports, delivering up to 120W total power. Supports automatic PoE detection and high-speed Gigabit data transfer .
- TP-Link TL-SG1010PE - Unmanaged Gigabit switch with 8 PoE+ ports, total PoE budget of 110W, plug-and-play simplicity, and reliable performance for small office networks .
- Ubiquiti UniFi US-10-150W - Managed switch with 10 Gigabit ports, 8 PoE+ ports, and a total PoE budget of 150W. Supports VLAN, QoS, and centralized UniFi controller management .

- Netgear GS110TP – Smart switch with 8 PoE+ ports, 2 Gigabit uplinks, total PoE budget of 55W, and features like VLAN, QoS, and web-based management for small business networks .
 - Cisco Business CBS110-10P – Unmanaged Gigabit switch with 8 PoE ports, total PoE budget of 62W, reliable for IP phones, cameras, and access points .
 - Zyxel GS1100-10HP – Unmanaged switch with 8 PoE+ ports, total PoE budget of 80W, fanless design, and easy plug-and-play setup for home or office use .
 - TP-Link TL-SG2210P – Managed switch with 8 PoE+ ports, total PoE budget of 124W, supports VLAN, QoS, and network monitoring for advanced setups .
 - Trendnet TPE-TG80g – Unmanaged Gigabit switch with 8 PoE+ ports, total PoE budget of 123W, compact design, and reliable performance for small networks .
- Key Considerations
- PoE Budget: Ensure the total PoE power meets the requirements of all connected devices.
 - Managed vs Unmanaged: Managed switches offer VLAN, QoS, and monitoring, while unmanaged switches are plug-and-play.
 - Long Reach PoE: Some switches support extended distances (up to 250m) for large areas.
 - Port Configuration: Most 10-port switches have 8 PoE ports and 2 standard uplinks. These switches are suitable for IP cameras, access points, VoIP phones, and other PoE-enabled devices, providing both power and data over a single Ethernet cable for efficient network deployment .
