

Relay Protection Device Price List

Overview

protection relay price: Best Deals in 2025 Find the best protection relay price in 2025. Compare top suppliers, check unit pricing, and get verified option.

Key Takeaways

Relay protection devices typically range from \$200 for basic overcurrent relays to \$10,000 or more for advanced digital or multifunctional relays. Price Ranges by Type

- Basic Electromechanical Relays: \$200–\$800. These are simpler devices with fixed wiring and manual settings, suitable for small-scale or backup protection systems .
- Digital/Numerical Relays: \$1,000–\$5,000. Microprocessor-based relays, such as Siemens SIPROTEC 7SJ or ABB REX series, offer programmable protection, monitoring, and multifunctional capabilities .
- Advanced Multifunctional Relays: \$5,000–\$10,000+. High-end devices like Eaton's Bus Differential or Arc Flash Relays provide comprehensive protection, predictive diagnostics, and integration with smart grid systems .
- Medium-Voltage Line and Transformer Relays: \$2,000–\$8,000. Devices like SIPROTEC 7SL82/7UT85 combine differential and distance protection for lines and transformers, often used in industrial or utility applications .

Factors Affecting Price

- Voltage Level: High-voltage relays for transmission lines are more expensive than low- or medium-voltage relays.
- Functionality: Relays with multiple protection functions (overcurrent, differential, distance, arc flash) cost more.

- **Brand and Certification:** Siemens, ABB, and Eaton relays are premium brands with higher reliability and warranty coverage.
- **Integration and Communication:** Devices supporting IEC 61850, SCADA integration, or remote monitoring are priced higher.
- **Quantity and Procurement Source:** Bulk orders or distributor pricing (e.g., DigiKey) may reduce per-unit cost .

Additional Considerations

- **Warranty and Support:** Extended warranties, like Eaton's 10-year coverage, can influence total cost .
- **Installation and Testing:** Relay test sets and calibration equipment may add \$500-\$3,000 to the overall system cost .
- **Lifecycle Costs:** Maintenance, firmware updates, and spare parts should be considered when budgeting. In summary, relay protection device prices vary widely depending on type, voltage rating, functionality, and brand, ranging from a few hundred dollars for basic relays to over \$10,000 for advanced digital or multifunctional devices. For exact pricing, contacting distributors or manufacturers directly is recommended.
