

Standard installation fee for electricity meters and distribution boxes

Overview

For standard residential installations, the typical cost to replace or install an electrical meter box ranges from \$600 to \$2,000, with most projects falling near \$1,000 to \$1,400. Costs vary based on amp rating, construction materials, socket type, overhead vs. underground service, labour. Homeowners typically pay a lump-sum for electric meter installation ranging from modest upgrades to full service upgrades. The main drivers are meter type, service size, local permitting, and whether utility work is required. Most organizations underestimate the number of moving parts—from DNO fees to commissioning requirements. Qualified electrician: You'll need to contact a qualified electrician to connect your new electricity supply. The quote we provide for you can include optional extra's such as excavation in the private land and materials such as ducting.
