

Which company makes fiber optic cables

Overview

This section provides an overview for fiber optic cables as well as their applications and principles.

Key Takeaways

Leading fiber optic cable manufacturers include Corning, AFL, and Prysmian, among others, offering high-performance solutions for telecommunications, data centers, and industrial applications. Top U.S.-Based Manufacturers

Corning Incorporated (Corning, NY) is a global leader in fiber optics, having pioneered low-loss optical fiber in 1970. They produce single-mode and multimode fibers, including SMF-28® Contour™ Fiber for high-density data centers and CPO FlexConnect™ Fiber for co-packaged optics, serving Tier-1 carriers and government projects. AFL (Duncan, SC) manufactures fiber optic cables, connectors, fusion splicers, and test equipment. Established in 1984, AFL serves telecommunications, broadband providers, and industrial sectors, emphasizing network reliability and innovation. Prysmian Group (Claremont, NC) produces optical fiber and cables compliant with Build America, Buy America (BABA) requirements. Their offerings include indoor-outdoor dry loose tube riser cables, Central Loose Tube 300, and CampusLink™ solutions for versatile deployment in aerial, duct, and direct-buried environments. Superior Essex is another U.S.-based manufacturer providing fiber optic cables for government-funded projects, ensuring domestic production compliance and high-quality performance.

Notable Global Manufacturers

Several international companies also produce fiber optic cables with U.S. operations or global distribution:

- Furukawa Electric (Japan)
- Sumitomo Electric (Japan)
- Prysmian Group (Italy)
- Shenzhen Necero Optical Fiber and Cable Co., Ltd. (China) These companies often partner with U.S. enterprises for private projects or international deployments, balancing performance, cost, and delivery timelines .

Applications and Specialties

Fiber optic cables are used in:

- Telecommunications networks for long-haul and metro applications
- Data centers with high-density, low-latency requirements
- Industrial and utility sectors for secure and reliable connectivity Products vary by fiber type (single-mode for long distances, multimode for short-range), cable design (loose tube, tight-buffered), and environmental suitability (indoor, outdoor, direct-buried, aerial).

Summary

For U.S.-based procurement, Corning, AFL, Prysmian, and Superior Essex are leading manufacturers offering high-quality fiber optic cables. Global alternatives like Furukawa, Sumitomo, and Shenzhen Necero provide additional options for international or private projects. Selection depends on application, compliance requirements, and performance needs .
